

## Reversible Plastic Case Thermometer

The clear body fits to the cap with a bayonet clip which allows the case to be reversed and used as a holder for the thermometer to avoid contact with the material being tested. Since mercury is no longer preferred as the filling liquid, due to its potential hazard, Brannan have developed a blue coloured alternative **LO-tox™** filling combining high legibility and accuracy with low levels of hazard.

### Product Specifications

- Ranges:** 30 to +50°C/C&F  
0 to +50°C/C&F  
-10 to +110°C/C&F
- CE:** N/A
- ROHS/WEEE:** N/A
- Hazard Information (SDS):** See [www.brannan.co.uk](http://www.brannan.co.uk) for information
- Product Material:** Clear Pocket Case: Random Co Polymer  
Glass Tube: **LO-tox™** filled
- Component Weights:** Plastic - 6g  
Glass - 11g
- Product Weight:** 17g
- Product Dimensions :** 150 x 15mm

Range	Sub Divisions	Product No
