Grant

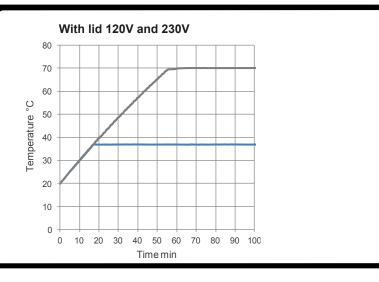

SUB Aqua Pro water baths range

Performance datasheet: SAP2 - 2 litre capacity (120V and 230V models)

Typical performance data

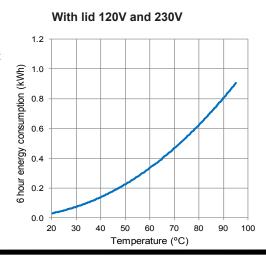

Heat up time

Heat up time from 20°C

Energy Consumption

Consumption is measured over a 6 hour period when the bath is controlling at set temperature. All figures are for guidance only. Consumption figures may vary due to factors such as ambient temperature, vessel loading and ventilation.

Testing to DIN 12876
