Section VI - Health H	azard Data			
Route(s) of	Inhalation?	Skin?	Ingestion?	
Entry	N	A.	N.A.	N.A.
Health Hazard (Acute and C	Chronic) / Toxiclogical	information		
· · · · · · · · · · · · · · · · · · ·		contaminated with electrolyte		
In contact with electrolyte	can cause severe irritation a	nd chemical burns.		
Inhalation of electrolyte ve	apors may cause irritation of	the upper respiratory tract an	d lungs.	
Section VII – First Aid	d Measures			
First Aid Procedures				
		kin, wash with plenty of water	<u> </u>	
	<u> </u>	copious amounts of water for		
If electrolyte vapors are in	haled, provide fresh air and	seek medical attention if resp	iratory irritation develops. V	Ventilate the contaminated area.
Section VIII - Fire and	d Explosion Haza	rd Data		
Flash Point (Method Used)	Ignition Temp.	Flammable Limits	LEL	UEL
N.A.	N.A.	N.A.	N.A.	N.A.
Extinguishing Media				
Carbon Dioxide, Dry Cher	mical or Foam extinguishers			
Special Fire Fighting Procedures				
N.A.				
Unusual Fire and Explosion Hazard	ds			
Do not dispose of battery	in fire - may explode.			
Do not short-circuit batter	y - may cause burns.			
Section IX – Accident	tal Release or Sp	illage		
Steps to Be Taken in Case N				
Batteries that are leakag	e should be handled with rul	bber gloves.		
Avoid direct contact wit	h electrolyte.			
Wear protective clothing	g and a positive pressure Sel	f-Contained Breathing Appara	itus (SCBA).	
Section X – Handling	and Storage			
Safe handling and storage a				
Batteries should be ha	ndled and stored carefully to	avoid short circuits.		
Do not store in disorde	erly fashion, or allow metal of	objects to be mixed with store	d batteries.	
Never disassemble a b	attery.			
Do not breathe cell va	pors or touch internal materi	al with bare hands.		
	shall not be stored in high t	emperature ,the maximum ten	nperature allowed is 60 for	or a short period during the shipment,

Section XIV – Transportation Information

Dispose of batteries according to government regulations.

All GP lithium coin battery (Lithium Metal Battery) comply to the necessary requirements under the UN Manual of Tests and Criteria as referenced in the following transportation regulations:

- 1. UN Recommendations on the Transport of Dangerous Goods Model Regulations
- 2. U.S. Department of Transportation hazardous materials regulations (HMR),
- 3. International Civil Aviation Organization (ICAO) Technical Instructions,
- 4. International Air Transport Association (IATA) Dangerous Goods Regulations, Partially Regulated DG Section II of PI 968 and
- 5. International Maritime Dangerous Goods (IMDG) Code. Special Provision 188 & Special Provision 230 & Special Provision 903

GP lithium coin batteries are exempted from these regulations since they meet all UN Testing requirements and not exceed 1.5g lithium equivalent (UN3090.)

All GP lithium coin batteries (Lithium Metal Battery) packing comply with Partially regulated DG. Section II of PI 968.

Cells should be packaged in accordance with these transportation regulations. It is especially important to ensure that cells are packed in such a way to prevent short circuits.

** The commodity is met the UN manual of Tests and Criteria, Part III, Sub-section 38.3 **Non-dangerous goods.

Such battery have been packed in inner packaging in such a manner as to effectively prevent short circuit and movement that could lead to short circuit.

GP Batteries

Document Number: MCRA100 Revision:14 Page 4 of 4

Section XV - Regulatory Information

Special requirement be according to the local regulatories.

Section XVI – Other Information

The data in this Material Safety Data Sheet relates only to the specific material designated herein.

Section XVII - Measures for fire extinction

In case of fire, it is permissible to use any class of extinguishing medium on these batteries or their packing material. Cool exterior of batteries if exposed to fire to prevent rupture.

Fire fighters should wear self-contained breathing apparatus.

WEIGHT OF LITHIUM FOR LITHIUM BATTERY

Battery type	Model	Weight of cell (g)	Aggregated lithium equivalent content (g)
	GPCR1025	0.6	0.01
	GPCR1216	0.7	0.01
Coin-type	GPCR1220	0.8	0.01
	GPCR1616	1.1	0.08
	GPCR1620	1.2	0.02
	GPCR2016	1.7	0.03
	GPCR2025	2.4	0.06
	GPCR2032	3.2	0.07
	GPCR2430	4.3	0.09
	GPCR2450	6.6	0.17
