

WASHING THE DANTOY-TOYS

Important information according to the COVID-19 guidelines

We would like to inform you that all dantoy products can be cleaned with denatured alcohol, are dishwater safe and can be washed in hand with water and soap etc.

According to the directions of the Danish authorities, every institution must wash their toys twice a day, and every toy, which cannot be washed, must be packed away.

All dantoy products can be washed again and again and can therefore constantly be a part of the daily play for the joy of the children.

We are proud of delivering a quality product. dantoy is licensed to the Nordic Swan Ecolabel, and all our products are produced in Hobro in Denmark.

Enjoy the play.
