

THE UK'S NO.1 ECO-FRIENDLY CLEANING REFILL BRAND

OCEAN SAVER®

Power-Cleaning EcoDrops

500 BILLION

plastic bottles are used every year – meaning, there are 66 times as many bottles as there are humans on the planet.

50%

of all plastic produced (380 million tons per year) is for single-use purposes – used for just minutes and then thrown away.

10 MILLION

tons of plastic are dumped in our oceans annually. That's equal to more than a garbage truck load every minute.

450 YEARS

is how long a plastic bottle can last in the marine environment.

BY SWITCHING TO OCEANSAVER® YOU CAN MAKE A POSITIVE IMPACT

Since launching we have saved over 750,000 bottles from going to landfill. To put that into context, that's enough energy saved for a whole year to power:

SWITCH AND SAVE SPACE. 1 OCEANSAVER® REFILL PACK SAVES 20 TRIGGER SPRAY BOTTLES

From 1 refill pack of OceanSaver EcoDrops®, you can make 20 spray bottles. That is 20 bottles that would otherwise go straight to landfill.

FOR EVERY 1000 BOTTLES SAVED, YOU CAN HELP TO SAVE ENERGY TO POWER 89 LAPTOPS OR 176 IPADS FOR ONE YEAR

OCEANSAVER® WAS BORN FROM A DEEP LOVE OF THE SEA AND A CONCERN OVER SINGLE USE PLASTIC.

We all know the ocean in our own way – through memories, objects, experiences. The Ocean is precious and we want it to stay that way for future generations. But plastic is destroying it, fast. There will be more plastic in the sea than fish by 2050.

We believe each small action can create a sea change. OceanSaver® is your contribution. We've taken a stand by making really effective, plant-based cleaning solutions. Cleaning your workplace and saving the ocean.

Our EcoDrops® transform in warm water, creating safe and powerful products to clean your workplace while you play your part in something vital. Join the cleaning revolution and become an OceanSaver® today.
