

Sterling Series, Half Power Rack

The sterling Series Half Power Rack lets you train hard and stay safe. The sleek walk-through design integrated with chin up bars and hooks to rack a barbell, allows endless training possibilities. Power racks are often used as a convenient workout station for virtually all compound exercises, including deadlifts, squats, bench presses, overhead presses or any other movement that you may require a spotter to be able to perform. The Half Power Rack is ideal for performing the olympic lifts and is thereby very popular within cross fit gyms, it is also a fantastic addition to any facility where space it needed.
