

Rhino Pro Strength Machine

The Rhino Pro Strength System is everything you will ever need from one machine.

- Cable Crossover / Dual Adjustable Pulley
- Smith Machine
- Half Power Rack
- Multi-Grip Chin up Bar
- Lat Pulldown
- Dipping Arms
- Land Mine Core Trainer

The Rhino Pro Strength System is ideal for any fully commercial establishments whereby space is a premium through to

PT Studios and also high end home gyms.

Perfect for a wide variety of users as the Rhino Pro can be used to perform over 100's of different exercises to ensure a full body workout tailored to the users individual preferences.

Cable Crossover / Dual Adjustable Pulley

2 x separate 77kg weight stacks and a 1:2 cable ratio
Super smooth adjustment mechanism / 32 x height positions

Smith Machine

Commercial grade Smith Machine featuring quality linear bearings
Complete with the safety support mechanism for individual usage

Half Power Rack

Maximum user weight of 250kg

The J-hooks and spotting arms are coated in a Polymer layer to protect the knurling of your barbells

The Rhino Pro comes complete with a range of cable attachments which can be stored on the integrated hooks as part of the rear support bar.

6 x weight plate horns ensure that all of your Olympic weight plates can be stored neatly when not in use.

The vertical Olympic Bar holder at the rear of the machine is also ideal for storage.

Spotter Arms

Weight Storage Horns
