

Fibre Optic Chandelier

The Fibre Optic Chandelier uses a cascade of strands that immerse the user in a calm sensory experience. This ceiling mounted sensory product is placed above the user for them to interact.

The user can use the Fibre Optic Chandelier from all angles and get the benefit of sensory stimulation. Simply use soft play or a bean bag underneath to add further relaxation and interaction.

Key Points

- › Choose between 2 metre and 3 metre length strands.
- › Interactive options available for switch based controls and sensor control technology.
- › Great for a sensory room and doesn't take up a lot of space.
