

Air Tube

Experience a whirlwind of beads as they spiral through the Air Tube. This maintenance free tube is easy to set up and the included beads provide a vortex like effect that creates a sensory stimulating pattern for the user.

The Air Tube is ideal for sensory relaxation and the interactive options provide the user with the ability to interact through cause and effect learning.

Key Points

- › Heights between 1m and 2m.
- › No maintenance required. Comes with everything you need to get started.
- › Sound, touch and DMX interactive options available.
- › A great alternative to a Bubble Tube without the need for water.
