TACTILE PANEL

# INSTALLATION

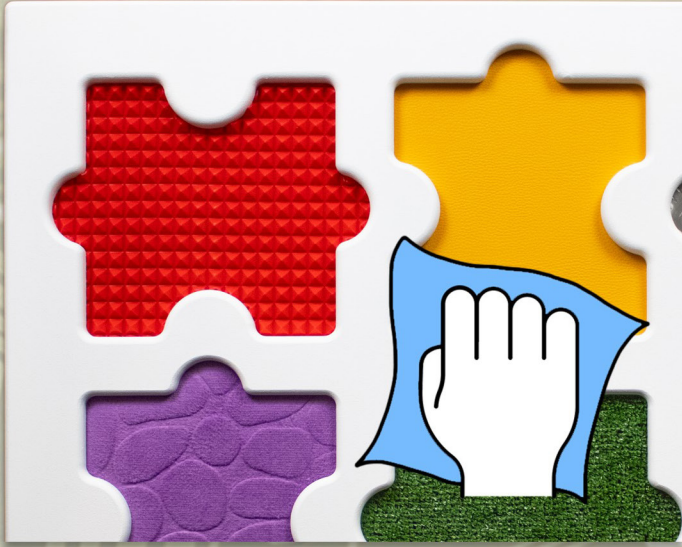

- Locate the hanging brackets on the back of the Tactile Panel Assembly.
- Drill holes in wall 830mm apart and insert 6mm wall plugs.
- Insert 30mm screws into the wall plugs and hang panel.
- Mark drill points through the fixing holes in the bottom corners of the panel.

- Remove panel and drill the marked points. Then insert the 7mm wall plugs.
- Re-hang panel and insert the 70mm screws, along with the screw caps, into the fixing holes.
- Press screw caps closed when finished.
