

Dining Furniture

products & services

SPACERIGHT
europe ltd

Introduction

- *With a history spanning 100 years, we have used our expert knowledge of schools and similar environments, to deliver a comprehensive range of dining solutions that represent the very best in high-quality manufacturing, versatility and value*
- *Our flexible dining solutions enable schools to convert halls into multiuse areas effortlessly, without the need for heavy lifting.*

Features & Benefits

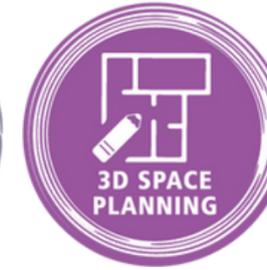

Seating

- Superior plastic formula used to mould single-piece seat
- Heavy-weight seat for durability
- 66mm seat stem for strength (inc. ribs)
- An extensive number of ribs on underside of stool prevent flexing & damage
- 8.5mm wall thickness on seat prevents stool breakages
- Features circular cross-section as opposed to square to eradicate potential 'weak points' in mounting and seat moulding
- Easy to wipe-clean

Highest spec
stool on market

Features & Benefits

Frame

- 16 year warranty on mechanisms and welds
- 32mm diameter steel used throughout the frame, including the leg. This is essential to maintain strength, stability and durability. Thinner steel at this critical part of the frame could result in failure
- Frame is sturdy with minimal movement when nudged or where pressure is applied

Robust & sturdy 32mm frame throughout inc. leg

Features & Benefits

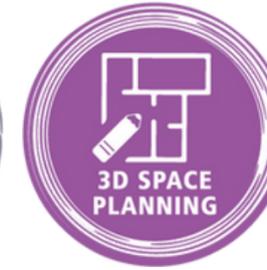

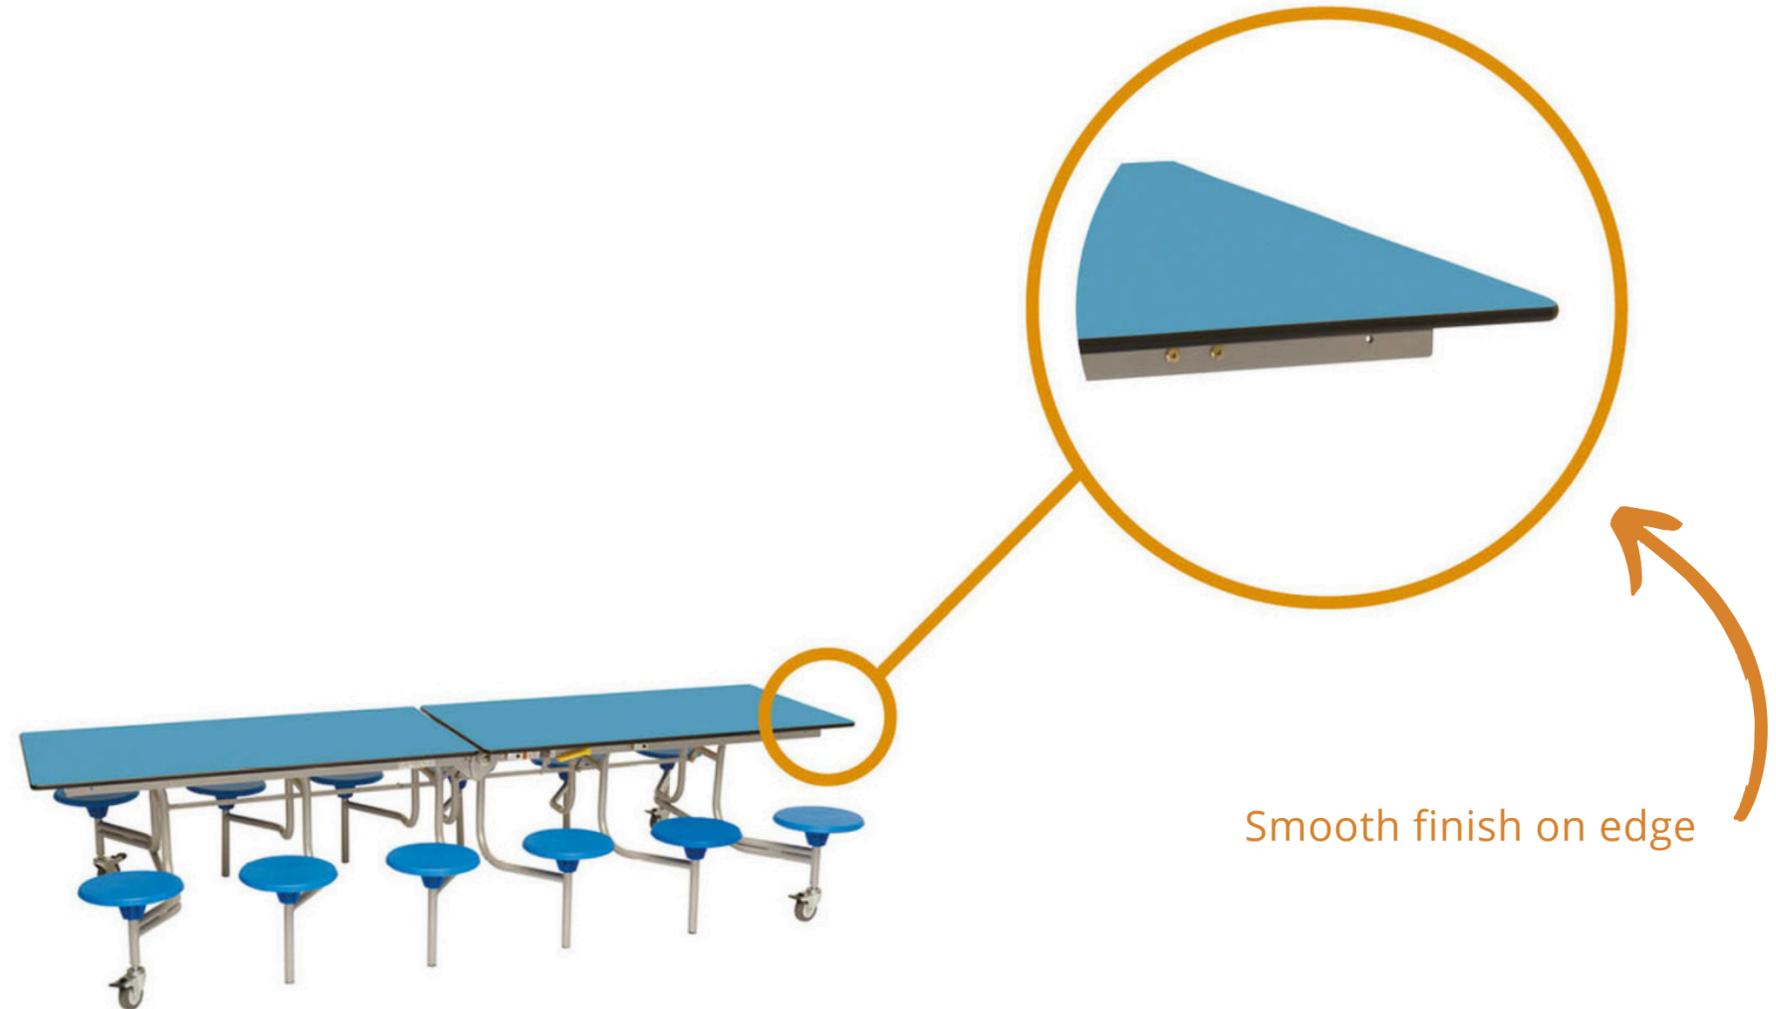

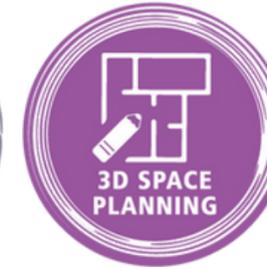

Table Top

- Laminated table top with tough edging and MDF core
- Water-resistant & easy-clean
- Smooth finish on edge is easy to clean for improved hygiene
- Table tops are fitted securely but are removable, in the event that a replacement or colour change is required

Features & Benefits

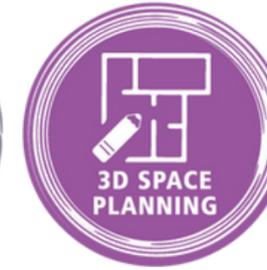

Locking & Safety

- Torsion is accurate for the product weight to ensure a smooth, safe transition from deployed to intermediate and transport/storage positions
- Integrated safety bar locks to an intermediate position before full deployment. Benefits include:
 1. Protecting the operator from injury (dropping on feet)
 2. Enabling correct positioning before deployment
 3. Allowing easy access underneath for cleaning
 4. Preventing damage to table from unintentionally dropping to full deployment

Integrated safety bar

Features & Benefits

Braking & Transport

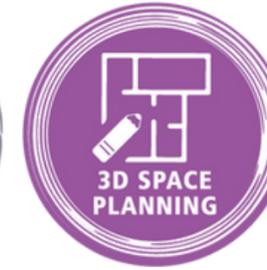

- Fits through standard height doorway for transport and storage
- Features transport locking position
- Heavy-duty castors with 30mm-wide wheels for daily use in commercial environment
- Castors are secured with bolt for durability - more robust than 'push fit'
- The braking mechanism also prevents any movement when deployed. This is key to prevent sliding across floor during use

Folds to transport position

Features & Benefits

Storage

- Most compact Mobile Folding Table on the market
- Locks into dedicated storage position. This allows the table to maintain a compact depth for space-saving storage
- Brakes should NOT be used whilst in the storage position

Folds to storage position

735mm
